

YOUNTVILLE SELECTION ... 100% VARIETAL ... 100% DESIRABLE

Over the years, many of our friends and customers have pressed us to explain why we weren't making a *Special Selection* or *Private Reserve* wine. Our answer was always the same, "ALL of our wines are of private reserve quality. We just keep forgetting to put it on the label!"

To please these friendly, yet persistent customers, we decided to produce a limited amount of special wine which would be designed to make a statement about the unique viticultural areas in which the grapes were grown. Thus, the 1992

Carneros Selection Chardonnay and the 1991 *Yountville Selection* Cabernet were created and released a few

years ago. These two wines have been so well received that we decided to continue the tradition by releasing another vintage of the Cabernet Sauvignon *Yountville Selection*. This new release is from the incredible 1994 vintage.

Diehard fans of the winery will also notice something special about the label. After releasing sixteen vintages of our Cabernet Sauvignon with the highly recognizable black and white version of the Grgich Hills grape cluster logo, the new wine will sport a color label...

the first of its kind. Taste it, and you will find that Grgich Hills Cabernet has truly come of age!

1994 ... CABERNET SAUVIGNON ... YOUNTVILLE SELECTION

This 1994 *Yountville Selection* Cabernet Sauvignon is a big, dark, highly-extracted, powerful, yet elegant wine that will impress and intrigue you with layer upon layer of complex flavors that are seamlessly woven together. Like our 1991, this wine is 100% varietal, composed only of Cabernet grapes taken from our estate vineyard in Yountville. The initial aroma is one of sweet ripe fruit and newly hewn oak. The taste that follows is very similar with ripe fruit flavors of plum, blackberry and cherry, and soft, mouth-coating tannins that lend plenty of structure to this bold, young wine. Put this one away for another five to ten years. Only 1,050 cases were produced.
